is going on  
with Lampost  
and why  
should I care?

(A few facts and  
the questions  
they unfold...)

# 1.

**fact:** In South America alone, 1,000 new churches open each week.

**fact:** In this country, 3 to 4 thousand churches close their doors each year.

## question:

Have we overlooked one of the greatest mission fields ever?

The new mission field is our own culture: a culture that's been so saturated with Christian lingo that 90% of Americans believe "God loves them," but only a small fraction knows what "the Gospel" means. Lampost is breaking into that culture with innovative performances and videos that

bring the message alive in the language of a new millennium.

# 2.

**fact:** 10,000 people each day come to Christ in Communist China, 20,000 each day in Africa, and 20,000 daily in South America.

**fact:** Most of the great revivals in US history began on college campuses. But today, many Christian students fall away from their faith.

## question:

Isn't it time for another revival here?

Reaching the new mission field starts by training a new generation. Lampost has been mentoring and

training students for 20 years. We are committed to developing disciples who are equipped to follow the wind of the Spirit.

By combining creative skills and servant hearts, we are preparing the army of revival with new tools for ministry and growth.

# 3.

**fact:** the revival has already begun...

Every week on the campus of the University of Northern Iowa, 800 students gather for worship and teaching. Lampost is part of the leadership team for this event, partnering with local churches and Navigators campus ministry.

Hundreds of students are in Bible Studies and discipleship groups.

Across the country, similar stories are told. Lampost partners with campus ministries like Navigators to develop creative spark to support this growing fire.

Now we are looking to mobilize the students we disciple — to provide a setting where undergrads can experience hands-on ministry, and graduates can find full-time opportunity.

# 4.

**fact:** Lampost performs from coast-to-coast in churches, colleges, schools

**fact:** We develop creative outreach productions to impact our culture

**fact:** We produce video and media to support church worship

**fact:** We partner with missions groups to develop materials and training for overseas evangelism.

**question:**

Can you think of a better context to utilize the creative energy and passion of a new generation?

**All we need is a place to bring it all together...**

# Introducing...

## lampost studios

Our new home will provide the junction between our campus focus and our worldwide outreach.

- a theatrical / coffeehouse venue for creative performance
- a nightclub atmosphere where relational evangelism can happen
- a media studio for producing training and ministry videos
- a living space for team members in discipleship/community
- a training center for creative ministry and evangelism

Located just blocks from the University of Northern Iowa, each facet of the ministry will be staffed by students and new graduates in a mentoring partnership with Lampost and the community.

In addition to housing our operations and showcasing new productions from Lampost, the facility will provide a non-alcoholic alternative for students to come and invite unchurched friends.

**fact:** Lampost is taking a step of faith for future revival...

**question:** Will you join us with your support?
